**SOMETHING ABOUT YOU**

There's a distance between you and me  
Always been there and always will be  
Until we learn to act naturally  
And let all our fears of each other go free

You know something about me  
And I know something about you  
I see through all the love  
That you try to hide

We both dance around things we should say  
Always let the words get in our way  
Never asking each other to stay  
When we feel like turning and running away

You know something about me  
And I know something about you  
I see through all the love  
That you try to hide

All the times when you felt all alone  
Like there's no-one else you could run to  
All you had to do was open your eyes  
And you'd see I was always there looking for you

We're both frightened by what we might find  
If we open our hearts and our minds  
So we left all our feelings behind us  
And now we're here feeling deaf, dumb and blind

I know something about you  
And you know something about me  
You see through all the love  
That I try to hide

And you know something about me  
And I know something about you  
I see through all the love  
That you try to hide

**THE TOWN AT THE END OF THE WORLD**

On the corner of Hope and Forsaken Streets  
There's a house where a little girl lives  
She's been waiting alone for her dad to come home  
And make good on the promise he gives

But he's busy downtown on Besotted Street  
In a tavern he visits each day  
He's been drowning his sins in tequila and gin  
While the whole world just washes away

And he feels alone  
And he doesn't know  
Why he can't control his own life any more  
So he runs away  
And he comes to stay  
Where he feels at home  
in the town at the end of the world

His mind is lost on Anguish Avenue  
As he summons his strength not to cry  
While his girl is alone when he doesn't come home  
And she still doesn't understand why

That he feels alone  
And he doesn't know  
Why he can't control his own life any more  
So he runs away  
And he comes to stay  
Where he feels at home  
in the town at the end of the world

He thinks the best of his life has gone by  
But all the things worth living for  
Are in front of his eyes

And over the hill on Nostalgia Way  
There's a woman that he used to love  
She is wondering how he is doing right now  
And if she's someone he's thinking of

And she feels alone  
And she doesn't know  
Why she can't control her own life any more  
So she runs away  
And she comes to stay  
Where she feels at home  
in the town at the end of the world

## DANCE WITH ME

Dance with me  
Why don't you dance with me  
Come on and dance with me right now  
It's a beautiful night and the time is right  
and I'm ready to show you how  
Take my hand and listen to the band  
because they got it goin' on real loud  
They're playin' our song, let's sing along  
and have another dance right now

If you wanna dance with me  
Get up and move your feet  
Sway like a willow tree, swing to the groovy beat  
Jump like a little flea, the evening won't be complete  
Until you have another dance with me

Dance with me  
Why don't you dance with me  
Come out and dance with me tonight  
The music is playing, everybody is swaying  
Outside in the pale moonlight  
Hold me closer and don't say "no, sir"  
And everything will be all right  
Whatcha waitin' for? Let's hit the floor  
and together we can dance all night

If you wanna dance with me  
Get up and move your feet  
Sway like a willow tree, swing to the groovy beat  
Jump like a little flea, the evening won't be complete  
Until you have another dance with me

I'm sliding on my knees  
Begging you darlin' please  
If you wanna be through with me  
I hereby set you free  
But before you take your leave  
I have a request of thee  
Have another dance with me

[REPEAT FIRST VERSE]

If you wanna dance with me  
Get up and move your feet  
Sway like a willow tree, swing to the groovy beat  
Jump like a little flea, the evening won't be complete  
Until you have another dance with me  
Have another dance with me  
Spin like a 33  
Hula with the ukulele  
Have another dance with me!

## MISS MISCHIEF

There is something in your eyes  
A blue that I've only seen in skies  
A wickedness that hides the lies you say

But there is something you should know  
I'm on to all of the tricks you show  
I won't be swayed by the curves you throw my way

Because I know when I see you smile  
I'm just some other guy you're trying to beguile  
Miss Mischief

There's something in the way you play with words  
You say the sweetest things I've ever heard  
But I am wiser now, I won't be lured away

Because I know when you're calling my name  
It's just another way you're playing your game  
Miss Mischief

You're the kinda girl I fell for all of my life  
But you're not the kinda girl I'd ever want for a wife  
You'll make someone a HELL of a wife!

There's something in the way you sing and dance  
That puts the younger boys into a trance  
But I am way too old to take a chance on you

Because I know when you're looking at me  
It's just some other poor sucker you see  
Miss Mischief

[Whistling]

Because I know when you promise me love  
There's always someone else you're thinking of  
Miss Mischief

## HONEY WINE

I'm sitting here under a shady tree  
Listening to the wind blow  
You might think just from looking at me  
That I move a little slow  
But don't believe everything that you see  
Because you never really know  
I'm just waiting for you to catch up with me  
And I got nowhere to go

I think I'm doing pretty fine  
I'm finally feeling okay  
There's nothing left of me inside  
I've put all my worries away  
I'm happy here just wasting time  
Just sitting around all day  
I'm drinking all your honey wine  
I think I'll have a little more

If you want to find a place that's worry free  
Well then you know just where to go  
Just sit right down here next to me  
Where the tall grass grows  
We'll take our cue from the birds and the bees  
They seem to really know  
I'll play you a song on my ukulele  
And this is how it goes

I think I'm doing pretty fine  
I'm finally feeling okay  
There's nothing left of me inside  
I've put all my worries away  
I'm happy with just wasting time  
Just sitting around all day  
I'm drinking all your honey wine  
I think I'll have a little more

Whoa oh whoa oh

I'm happy just wastin' a little time with you  
Just sitting 'round all day  
I'm drinking all your honey wine  
I think I'll have a little more  
I'm happy, you happy, drinking wine  
Honey wine

## HOLD ON TO ME

I know life ain't easy and I know love is hard  
There's always somebody tryin' to tear us apart  
But if you are steadfast and patient and true  
I probably might stay with you

Hold on to me, hold on to me  
When the goin' gets rough  
You gotta get rough with me  
Hold on to me, hold on to me  
When I start runnin'  
Hold on to me

I know that you love me in spite of my ways  
I drink and I gamble, I go missing for days  
There's always somebody else turning my head  
But it's cheaper to stay here instead

Hold on to me, hold on to me  
When the goin' gets rough  
You gotta get rough with me  
Hold on to me, hold on to me  
When I start runnin'  
Hold on to me

I know I'm not a good man  
But I'm doin' the best that I can  
I know that I don't treat you right  
But if you want me to change  
Maybe someday I might

I know you're a woman of tolerant nerve  
You're better to me than I prob'ly deserve  
If you ever leave me I'll sing a sad song  
Until somebody new comes along

Hold on to me, hold on to me  
When the goin' gets tough  
Come on and get tough with me  
Hold on to me, hold on to me  
When I start runnin'  
Hold on to me  
When I start runnin'  
Hold on to me

## THE OCEAN SONG

Hear the ocean wind  
Here it comes again  
You know it feels right  
So let the sunlight in

Your arms are open wide  
Embrace the rising tide  
It washes over all you hold inside

Feel the motion  
Of the ocean waves  
They call for you  
Let them take you  
Far away where  
You can start anew  
Don't let them break you down  
Like you always do

Won't you come with me  
We'll sail across the sea  
Set adrift on a ship of harmony

Feel the motion  
Of the ocean waves  
They take us home  
Stars above us  
Guide us to a place  
We can call our own  
A place where we won't ever  
Have to be alone

A place where we won't ever  
Have to feel alone

## THE CLICHÉ SONG

Wherever you go  
The truth isn't told by the few who know  
And what you believe  
Can make you smart or seem naive  
Put your trust in the words I said so long ago  
Back when I told you I love you so

A change is good as a holiday  
I think it's safe to say  
I know it sounds like a big cliché  
You're the girl of my dreams  
My good and my bad dreams  
Clichéd as it may seem

What can I say, I swear I'll say it to you every day  
Whatever I do, good enough isn't good for you  
I'm trying to get back to the place I was so long ago  
Back when you knew how I need you so

A change is good as a holiday  
I think it's safe to say  
I know it sounds like a big cliché  
You're the girl of my dreams  
My good and my bad dreams  
Clichéd as it may seem

The more things change  
The more I stay the same  
I'm tired of playing the same old game

A change is good as a holiday  
I think it's safe to say  
I know it sounds like a big cliché  
You're the girl of my dreams  
My good and my bad dreams  
Clichéd as it may seem

## **SLOW DOWN**

Everybody's always running around  
They all got somewhere else to be  
You should put your feet back on the ground  
Stop and spend some time with me  
And so I'm begging please

Slow down

I've been trying to get a hold of you  
But you always move so fast  
I'm finding it hard just to keep up with you  
Moving at such a speed won't last  
So that's why I say

Slow down

And every time I try  
To see you face to face  
The picture's always out of focus  
Because you're moving at such a crazy pace

Everybody's always running around  
They all got somewhere else to be  
I wish you'd put your feet back on the ground  
Stop here and spend some time with me  
And so I beg and plead

Slow down

## **FEAR**

I always want what I haven't got  
and now that's quite a lot of noise and silly toys  
and things that keep me far away

And I never gave much thought  
but now I see it's not a thing that I can sing about  
without it coming out, so...

You're all that I ever wanted  
I come to you undaunted by the fear of you  
I still hold right here in my heart  
You're all that I ever needed  
I finally conceded to let you in to me again  
like I did at the start

We've been here for so long it started to feel wrong  
and so I let you know that I was going to run away

But you, you wouldn't let me go  
and so I want to show you how I'm staying now  
and trying to love you more today, because...

You're all that I ever wanted  
I come to you undaunted by the fear of you  
I still hold right here in my heart  
You're all that I ever needed  
I finally conceded to let you in to me again  
like I did at the start

And all the things I thought were right  
about the things that we would fight about  
were not alright when I was walking out the door

You hold my heart in your hands  
and so of course it stands to reason  
you would please and understand me  
when I needed you most

You're all that I ever wanted  
I come to you undaunted by the fear of you  
I still hold right here in my heart  
You're all that I ever needed  
I finally conceded to let you in to me again  
like I did at the start

## ANNIVERSARY SONG

You belong with me  
That's a fact that's been proven repeatedly  
Through the years between you and me

You're so good to me  
The way you lie beside me through adversity  
And that's the way it ought to be

Walking hand in hand  
Through this life that we had planned  
And that's what makes today a special day

Our anniversary  
That's the day we celebrate  
Anniversary  
Remembering when you gave yourself to me

You're a mystery  
The way you move improves with age and history  
You know you still appeal to me

Walking hand in hand  
Through this life that we had planned  
And that's what makes today a special day

Our anniversary  
That's the day we celebrate  
Anniversary  
Remembering when you gave yourself to me

The girl that I adored  
Has grown up into so much more  
And every year I love you more than before

Our anniversary  
That's the day we celebrate  
Anniversary  
All the love you give to me  
Anniversary  
You fill me with the memory  
Anniversary  
Remembering when you gave yourself to me

## MY LOVE

Where is the love that I want  
Where is the life that was promised me  
Where is the home that I've seen  
There on the shores of my lonely dreams  
And when you see me carrying  
The weight of the world  
Shoulder the burden a while with me  
Lay down and curl up beside me

Where is the fortune I lost  
When will it come around again  
Why do I still pay the cost  
Why do I take it on the chin  
And when you hear me call your name  
All over the world  
Turn around and come on home

My love is more than you bargained for  
My love is yours to have or to ignore  
When you walk through the door  
I'll be waiting for you with a promise of  
A day when you can have my love

Where is the sound of your heart  
When will I hear it beat again  
Why did you run so far  
Just to escape a little sin  
And when you hear me spreading the word  
All over the world  
I'm calling you to come back home

When you went so far away, so long ago  
you left me holding on to a life I could not let go

Where is the end of the road  
When is it time to go to sleep  
When will the ocean flow  
Pull me out of the lonely deep  
And when you see me sailing towards  
The end of the world  
Then you'll know I'm going home

My love is more than you bargained for  
My love is yours to have or to ignore  
When you walk through the door  
I'll be waiting for you with a promise of  
A day when you can have my love  
A chance for us to finally live  
with all the love I had to give before  
Before you walked out the door  
(My love is more)  
You're the one I'm waiting for  
(My love is yours)  
You're mine forever more  
(My love is more)  
(My love is yours)

## MADELINE

He believed she was a gift sent from above  
She was the kind of girl that he'd been dreaming of  
He knew that he was bound to fall in love  
with Madeline

They lived together so in love for several years  
Until the day she wrote a note and disappeared  
He read the words she wrote and shed a tear  
for Madeline

And he cried-

I'll wait for you 'til the end of time, Madeline  
Please won't you just give me a sign, Madeline  
Let me know if you're still mine, Madeline

He never understood just why she had to go  
What did he do to make her want to hurt him so  
He could fill an ocean with the things he didn't know  
about Madeline

And he cried-

I'll wait for you 'til the end of time, Madeline  
Please won't you just give me a sign, Madeline  
Let me know if you're still mine, Madeline

The love that you give away  
Comes back to you someday  
So have the faith to say what's on your mind

Take care in the things you do  
It'll all come back to you  
If you see it through it'll be all right

Fall on your knees and pray  
That she'll come back some day  
And you might hear her say she'll stay this time

She's the one for you  
You tell yourself it's true  
And try to hold on to that lonely lie

It always ends the same  
There's no-one left to blame  
So you call her name  
O, Madeline

He left his home in search of another way  
To find the girl who long ago had gone astray  
Then one day to his house a letter came  
from Madeline

And it read-

"I'll be home soon on the number 9, love of mine.  
You have always been on my mind.  
I hope we're fine. See you soon. I love you.  
Signed,  
Madeline."

And he cried-

I'll wait for you 'til the end of time, Madeline  
Please won't you just give me a sign, Madeline  
Let me know if you're still mine, Madeline

My Madeline
